SUMMARY

Java Developer (MCA, 2025) with hands-on experience building REST APIs using Core Java, Spring Boot, Spring Data JPA, Hibernate, Spring Security (JWT) and PostgreSQL. Built an Event Booking System and a full-stack URL Shortener (Spring Boot and React), and completed a software developer internship (ASP.NET MVC, C#). Seeking a Java Developer role (0 to 1 year of experience) in Delhi NCR.

SKILLS

Languages: Java, SQL, JavaScript, C#
Backend: Spring Boot, Spring Data JPA, Hibernate, Spring Security, JWT Authentication, REST APIs, Bean Validation, ASP.NET MVC
Databases: PostgreSQL, MySQL
Frontend: React.js, HTML5, CSS3, Tailwind CSS, jQuery
Tools: Git, GitHub, Maven, Postman, IntelliJ IDEA, Eclipse, VS Code
Core Concepts: OOP, DBMS, Collections, Exception Handling, RESTful API Design

EXPERIENCE

Software Developer Intern, IT4T Solutions, Noida, Uttar Pradesh — Feb 2026 - May 2026

- Developed web application modules in ASP.NET MVC and C#, implementing controllers, business logic and CRUD operations.
- Built responsive forms and dashboards using HTML, CSS, JavaScript and jQuery, integrated with backend endpoints.
- Debugged and tested application features, supported enhancements and deployments, and collaborated with the team using Git.

PROJECTS

URL Shortener (Full Stack) — Oct 2026

Java, Spring Boot, Spring Data JPA, Hibernate, PostgreSQL, React.js, Tailwind CSS, ZXing
Code: https://github.com/Vivekanand02/Url-shortener

- Built a full-stack URL shortener with Spring Boot REST APIs to create short links and a React (Vite, Tailwind CSS) interface to generate links and view QR codes.
- Generated unique 6-character alphanumeric short codes with a database unique constraint and a collision-retry check; served redirects using HTTP 302 with the Location header.
- Implemented QR code generation with the ZXing library, returned as a PNG image from a REST endpoint.
- Added request validation using Bean Validation (@Valid, @NotBlank, @URL) returning 400 for invalid input, and 404 for unknown short codes.

Event Booking System — Sep 2026

Java, Spring Boot, Spring Security, JWT, Spring Data JPA, Hibernate, PostgreSQL
Code: https://github.com/Vivekanand02/Event-Booking-System

- Developed REST APIs for user registration, login, event and seat management, booking and cancellation.
- Implemented stateless JWT authentication and authorization with Spring Security, including ownership validation for booking and cancellation.
- Prevented double booking by validating seat availability and updating seat status in the service layer before saving a booking.
- Added Bean Validation and centralized exception handling returning structured JSON error responses for 400, 401, 403, 404 and 409.

EDUCATION

Master of Computer Applications (MCA), Maharshi Dayanand University, Rohtak, Haryana — 2023 - 2025
Bachelor of Computer Applications (BCA), Marwari College, Bhagalpur, Bihar — 2019 - 2022

TRAINING

Java Full Stack Development Training, QSPIDERS/JSPIDERS, Gurugram — Jun 2025 - Jan 2026

- Trained in Core Java, SQL, PostgreSQL, Hibernate/JPA, Spring Boot and Spring Security with JWT through hands-on projects, using Git and GitHub.
